

Example: Treatment plan		Homeopathy for plants	
address	Mr John Example		
date	15.2.2022		
plant	Peach tree		
problem/disease/pest suspected	Black peach aphids		
application 1	XXX C 30, 1 application.		
application 2	1 week later: YYY C 200, 1 application.		
application 3	If you see no improvement: ZZZ C 200. Repeat application every 3 days, 3 times.		
application 4			
dosage	6 globules for 10 liters of water. Let dissolve the globules in 150 ml of water. It is practical to use a screw top lid to shake the mixture well. Put the mixture in a plastic watering can filled with 10 liters of water. Stir with a wooden stick and water the roots.
